Maybe if our gov would subsidize the domestic cotton like they do with the cotton we're exporting, then he would (preferably not subsidize at all). Until then, the Big Cotton industry treats us citizens a lot like our Big Healthcare industry (ie plug all the farming expenses towards the American consumer while giving the rest of the world a subsidized discount)

I'm sure it's difficult to keep content rolling hour after hour that's really off-script. Even big networks struggle with this. They have to find "articulate" people willing to speak who aren't nut jobs or want to act like idiots on a national broadcast forum. In between they have to fill that time.

Please God, give these strong good people the strength they need to be victorious. I am but one of Billions who stands to be enslaved if they fail.

I am from Canada. I am ashamed of my country and its citizens. American Patriots are the only thing that gives me hope.

Love you guys.

Please start the global Rebellion. Give all of us a chance to fight with you.

Also I really appreciate how Trump and many Patriots understand Israel for real and are not just a bunch of half baked 4Chan users. Thank you God for that too.

Your all so maganificent!!

A Protest is not going to accomplish what needs to be accomplished. They will weather the storm. Throw us a bone and send us home with thoughts of optimism. Then, they cement their plan all along after the coast is clear. The only way forward, if they do this, is to rip the doors off the Senate and House, and drag those mother fuckers into the street.

Without action everyone's words are meaningless. They're less than meaningless, because what they say and what they do aren't aligned. At least the communists tell you what they want and they work towards that.

Unfortunately, until tomorrow, Trump is the defacto leader of what actions should be taken, because he's the only leader that has the opportunity and appears interested in our cause.

After that, should Trump not step up to the challenge required, then the action we should be taking is organization and planning or even the tools to organize and plan without interference. Then we move on from there. However, this should have all been happening for the last 4 years and not a few days before it's too late.

I'll add to this, people should be networking now. Find the people in your state and make a plan to met up in the future. Leaders should be disseminating information on communication with everyone they meet.

A handful of these folks are giving us a bad look. I know they mean well, but someone with some leadership skills should really keep some of these people on the crowd and not at the podium. We can agree all day about the overreacting on Covid that takes place, but don't need a spokesperson for the Trump protests and rallies telling everyone to "hug it out" and hug the next person over, or yelling that "this is a super spreader". God gave them brains.. they need to use them.

The entire country is at stake here and we don't have wiggle room for these morons. I appreciate their effort, but really wish they'd use their fucking brains. Stick with Stop the Steal and it's perfectly fine to mention God or Jesus or whatever you want, because we have religious freedoms in the USA. I fully support that. But don't come off looking like some lunatic zealot. Between that and people LARPing around in cosplay at this even, how can we expect anyone to take us seriously?

I'm mad as hell right now because I'm full on BIG DICK ENERGY for GEOTUS, and i'm getting that clairvoyant notion that these clowns are just ruining it for him/us.
